Make in India

The 'Make in India' initiative announced in September 2014 is the flagship programme of the Indian government, designed to facilitate investment, foster innovation, enhance skill development, protect intellectual property and build best-in-class manufacturing infrastructure in the country. As part of this initiative, twenty-five sectors have been identified as priority sectors for attracting foreign collaboration and investments. This initiative will be further promoted among the German industry at the Hannover Messe, April 13-17, 2015, where India will be the Partner Country

Indus Media in cooperation with the Govt. of Rajasthan, State of Niedersachsen (Lower Saxony), BDO Advisory Service Limited, Khed City, NASSCOM and Hannover Messe has organised the high level panel discussion on the topic of

"Manufacturing in India". The panel discussion will engage representatives from politics, industry, administration and participants to understand the changes undertaken by the new government, steps taken so far to achieve the goals, and the future of India as preferable manufacturing destination.

Indo - German State-to-State cooperation in the fields of trade & investments, industry, technology, research and education
